2016 Upward College Summer Scholar Application Form

Upward College Summer Scholars Program is a highly interactive, fun, and intensive academic research 8-weeks project that focuses on college access, English training, critical thinking and leadership development. Participants will have opportunities to work on group research projects that emphasize social justice issues currently facing our communities and societies. The students will each conduct a research project on the topic of his or her interests, in line with future educational and career goals, with a global perspective. Students will then produce academically written papers and present the major research findings, policy and solution recommendations ready to be implemented at the end of the program. The program will use the Participatory Action Research model, a process that has emerged in recent years as a methodology for societal grassroots change, program development, and evaluation. Each participating student is a "Summer 2016 Scholar" and will receive a stipend.

_____

Student's name

_____

Date of birth Sex: F M

_____

Home address

_____

City, state and zip code

_____

Home phone number Cell phone number Email Address

_____

Name of school Grade level: 9 10 11 12

_____ _____
